Roots

The root **-STRUCT-**

-struct- is a Latin root that means "to build. ." Like most roots, *-struct-* can't stand alone—it needs a prefix and/or a suffix. *Con-struct-ive* is an example of a word we are learning that contains the root *-struct-*.

Directions: Find the word that matches the definition in the right hand column, and then divide it. Choose from these words: *destructive, constructive, structure, construction.*

Whole Word	Prefix	Root	Suffix	Whole word means
				The act of building or making something.
				Helpful and useful; builds up.
				Something that doesn't build up; it tears down.
