

Divide the compound words below, and write what you think the whole word means, or look it up in a dictionary. After you have played *Fishing for Compounds*, write your compound words, divide them into their two parts, and come up with a definition for each word.

Detours

COMPOUND WORDS

A compound word is one word that is made up of two smaller words. Example: classroom.

Whole word	First word	+ Second word	= Whole word means
classroom			
snowman
