

Detours

Roots

The root **-FORM-**

-form- is a Latin root that means "shape or style."

Unlike most roots, *form* means something all by itself. However, you can still add prefixes and/or suffixes to the root **-form-** to make new words.

Directions: Divide the whole words into prefixes, roots, and suffixes, and write a brief definition for each whole word. If there is no prefix or suffix, just draw a line in the box. There is an empty box at the end for you to come up with your own **-form-** word.

Whole Word	Prefix	Root	Suffix	Whole word means
unformed				
uniform				
formal				
informal
